# A CHANGE IN THE TECH WORLD

Responsibilities of the IT department haven't changed in a long time.

FINALLY, WITH…

- ✓ Accelerated digitalization
- ✓ Modern infrastructures
- ✓ Cloud technology

THE CHANGE IS HERE.

IT can reinvent their infrastructure for the future, allowing them to **transition from a support unit to a business-generating frontline team.**

Customers at the front and center
- New roles
- New missions
- Real-value services
- Converged solutions
- Commercialization
- Agile outcomes
- Automation

71% Print industry executives expect disruption
Quocirca

95% Businesses using cloud computing by 2025
Gartner

75% Plan to invest in new technology to facilitate innovation
Google

**40%** Adopting a cloud-native-first strategy in 2023
Forrester

LESS MANAGEMENT, MORE OUTCOMES

At Y Soft, we don't believe that **COMPLEX ON-PREMISE INFRASTRUCTURE** is the way to get there.

We see IT teams with an appetite for change – one where **OUTCOMES, FREEDOM, AND MEANINGFUL WORK** pave the way for them to build the backbone of the digital enterprise.

DIGITALLY PROFICIENT IT TEAM
- Digitalized solutions
- Converged infrastructure
- Backbone of digital enterprise
- Drive top-line revenue growth
- Business enablers
- Mission-critical projects

TRANSFORMATION BLOCKS

- Low-touch services
- Self-managed solutions
- User flexibility
- True cloud offerings

LET GO OF PRINT MANAGEMENT WITH:

- Cloud technology
- On-demand scalability
- Automation of IT admin work
- A converged solution
- Consistent user experiences
- Round-the-clock availability
- End-to-end security
