RELEASE NOTES BUILD 95

CONTENT

1 NEW FEATURES

The Mobile Connect module is no longer under Early Access Program and is fully available. (SQC-8409)

Customers with active support can upgrade even when the license tool cannot directly access the database. (SQC-8424)

Card reader tool 1.8.0 is included (see separate release notes). (SQC-8420)

Konica Minolta C3321i was added to Limited Devices. (SQC-8421)

Konica Minolta C3351i was added to Limited Devices. (SQC-8425)

2 FIXES AND IMPROVEMENTS

Update of technical components: Tomcat and Node.js. (SBT-4883)

Documentation update of page 'Xerox VersaLink EIP Configuration' to include the latest information. (SBT-4890)

Jobs that do not complete printing over IPP and get "stuck" are canceled after 24 hours. (SBT-4900)

Log files are no longer flooded with ERROR: value too long for type character varying(1000000) when a print job with lots of various page types and colors in it is printed. (SBT-4443)

Update of technical component to mitigate CVE-2023-20862 (Spring). (SBT-4882)

The counters "B/W pages - Pages - count" and "Color pages - Pages - count" are no longer missing from the reports. (SBT-4884)

Update of technical component to mitigate CVE-2021-29489 (Vulnerable JS Library). (SBT-4907)

Client V3 no longer fails to print PJL print jobs with PDF content. (SBT-4908)

When enhanced password protection is enabled it no longer interferes with the license checking mechanism. (SQC-8416)

2.1 PRODUCT EXTENSIONS (OR CUSTOMIZATIONS)

ⓘ   Customers who use YSoft SafeQ extensions or customizations should contact their Y Soft RSM or Customer Support Services for compatibility verification with the new Build. We recommend testing all extensions before applying a Build update into a production environment.

You can find additional information on Partner Portal: https://portal.ysoft.com/products/ysoft-safeq/extension-store/print-job-extension
