

TECHNOLOGY IN EDUCATION

WITH A SAFE 3D PRINTER AND A PROVEN STEAM CURRICULUM, LEARNING BREAKS OUT OF THE BOOKS

Today's students, even the youngest, are both digitally adept and easily distracted from what's flat and linear. In a complex world, yesterday's 3Rs are both inadequate and kind of boring. 3D printing with BE3D eDee changes all that.

BE3D eDee is a 3D printing solution bundle that includes BE3D Academy, a library of ISTE-certified STEAM curriculum. Hands-on lessons that define problems and produce tangible results transform the learning experience from argh to Aha! With BE3D Academy, 3D printing moves from a novelty to a significant teaching tool.

HOW IS BE3D EDEE DIFFERENT?

FOR STUDENTS

- Incentivizes learning
- Fosters collaboration
- Cross-disciplinary
- Requires research, thought, and innovation – and makes it fun
- Develops and exercises both digital and 3D thinking skills

FOR TEACHERS

- Easy to learn and be effective, no extra study or professional development required
- Lessons are classroom-tested and ISTE-certified, taking the guesswork out of teaching
- Introduces concepts from science, technology, mathematics, art and communications through fun projects

WHAT'S INCLUDED IN OUR 3D BUNDLE?

- Fully enclosed, lockable 3D printer
- BE3D Academy 3D online lesson plans
- DeeControl 3D layering software
- YSoft SAFEQ 3D print management software
- Filament and accessories
- Online training and support

” Junior high kids are digital natives. I knew they'd be able to use it right away. I was more concerned about if I would be able to learn it easily. But it's intuitive and the interface is really good.

Middle School STEM teacher, St. Thomas More School, Cincinnati, Ohio

YSOFT SAFEQ FOR YOUR 2D PRINTERS

A lot of school activity takes place on flat surfaces—words and numbers and pictures on paper. Schools around the world trust YSoft SAFEQ to deliver best-in-class print management services system-wide with minimal human intervention.

WHAT DOES YSOFT SAFEQ MEAN FOR SCHOOLS?

- Increases document security.
- Simplifies scanning and provides digital documents that are more editable and easier to locate through keyword search.
- Provides the ability to track usage and offer pay-for-print services.
- Saves money and eliminates waste.
- Integrates fully with YSoft BE3D eDee for one manageable print management system.

CARES ACT ELIGIBLE: FULL STEAM AHEAD

Some enterprising schools have already succeeded in receiving federal CARES Act grants for Y Soft education technology to enrich the curriculum, make up for lost time in the classroom and reduce administrative costs. Y Soft can assist in outlining your funding application.
