

YSOFT SAFEQ TERMINAL PRO 4

YSoft SafeQ Terminal Pro 4 provides the interface for **Authentication, Print Roaming** and other functions of YSoft SAFEQ when an integrated (embedded) solution is not desirable or not available. It has a modern, **7-inch capacitive touchscreen display** with a built-in card reader slot for YSoft USB Reader 3.

Terminal Pro 4 is **ideal for a multi-vendor print environment**, providing a single common interface, features, and management capabilities spanning all multifunction devices (MFDs). For companies that use a MPS provider, Terminal Pro 4 **makes it easy for providers to manage and maintain the printer fleet** as a whole.

Terminal Pro 4 can also be used to supplement an MFD's existing interface with a convenient touchscreen that empowers users to manage their print jobs. It does not communicate directly with the printer – it communicates via Ethernet with YSoft SAFEQ, which communicates with the MFD.

TECHNICAL SPECIFICATIONS

Size	199 mm H / 127 mm W / 21 mm D
Weight	250 g
Connections	2× Gbit LAN, 2× micro-USB 2.0, Smart cable port, 12 V power, 3.5 mm audio in/out
Color	Light gray / black
Power Supply	Per local requirements
User Interface	7-inch capacitive touchscreen, multi-touch, multicolor LED stripe and speaker
Card Readers	All current YSoft USB Readers supported
Processor	ARM v7 CPU, 800 MHz, 512 MB RAM
OS	Linux open platform, browser-based
Certifications	CE (Europe) EAC/Eurasian Customs Union (Russia, Belarus, Kazakhstan, Kyrgyzstan, Armenia) ACMA (AU, NZ) ISED (Canada) FCC (USA)

KEY FEATURES AND OPTIONS

- Enables user identification, authentication and personalized access to MFDs & network printers.
- Blocks unauthorized access to MFDs for copies and scans when used with available, optional smart cable. Especially useful for pay-for-services or to ensure all activities on the MFD are captured for audit control.
- Supports all YSoft SAFEQ platform suites and modules.
- Supports authentication by card, PIN, username/password or a combination of any of these methods.
- Designed to work with any MFD or networked printer.
- Supports many types of card reader technologies; contactless and contact (smart, magnetic and iButton).
- Job management functions include: view and select jobs, mark selected jobs as favorites, print from favorite job list, delete jobs from queue, display print job preview, display job details and change finishing options.
- Compatible with all worldwide power supplies.
- Includes a universal mounting kit and screw set that makes installation easy on any type of printer.
- Additional accessories include: 2 m Cat 5e Ethernet cable, 1 m cable spiral wrap and 18 cm micro-USB cable.
- Optional accessories include: smart cables for off-line MFD accounting, wall/table mounting kit, floor stand mounting kit and YSoft USB Reader 3.
