

HCP IWS

Switch to Hybrid Cloud Platform. It's easy to do.

A clear path to move Konica Minolta print fleets to the cloud.

Are you looking for a hassle-free way to achieve a completely serverless print infrastructure, one that's fully managed in the cloud?

EveryonePrint has created a customized app for Konica Minolta bizhub devices, enabling organizations to leverage Hybrid Cloud Platform (HCP) to seamlessly migrate the entire print infrastructure to the cloud.

- ◆ Completely serverless SaaS solution
- ◆ Reduced burden on IT
- ◆ Industry-leading security

True cloud solution

HCP, designed for Konica Minolta bizhub devices is a true cloud solution – enabling organizations to eliminate print servers and streamline print infrastructure management.

EveryonePrint has created a customized app for Konica Minolta bizhub devices, enabling organizations to leverage Hybrid Cloud Platform (HCP) to seamlessly migrate the entire print infrastructure to the cloud.

◆ **Completely serverless SaaS solution**

◆ **Reduced burden on IT**

◆ **Industry-leading security**

Cut the cost of printing and lessen the load on IT

Use HCP to modernize the print infrastructure in a way that suits your business, confident that it has the flexibility to accommodate your needs now and in the future.

Completely serverless

HCP for Konica Minolta removes reliance on print servers and the associated cost of acquisition and maintenance. The only hardware on-premise is the print devices themselves.

Increase efficiency

Save time and reduce manual steps, after authentication at any Konica Minolta bizhub device, it's easy to access multiple functions including print, copy or scan to me and other installed applications, directly from the intuitive user interface.

Simpler management for IT

HCP is an all-in-one print infrastructure platform that is always on, always up to date and always secure. By automating time-intensive tasks such as upgrades, security updates and troubleshooting, it reduces the pressure on IT and lowers support costs.

Print from any device

End-users can access print-outs from any device, jobs are sent to a single global print queue and only released once a user authenticates at their chosen bizhub MFP.

Designed to grow with the business

HCP is fully flexible, there's zero upfront costs, simply pay for the licences you need and it's easy to scale consumption up or down, to accommodate changing business needs.

Highest possible security compliance

Full data encryption both in transit, as well as at rest, and built-in auditing functionality helps you to proactively protect information, track documents, manage risk and achieve compliance.
