

Take your print infrastructure to the cloud

Make print perform in the cloud with EveryonePrint

EveryonePrint Hybrid Cloud Platform (HCP) is a unique all-in-one print infrastructure solution, enabling organizations of all sizes to benefit from the agility and innovation of cloud technology.

- ◆ Eliminate print-related servers
- ◆ Cut the cost of print infrastructure
- ◆ Lessen the load on IT

A solution built **for cloud**

HCP makes streamlining your print infrastructure, eliminating print servers and incorporating cloud technologies extremely easy.

Designed for organizations looking to reduce the IT burden and cost-effectively realise all of the benefits of a Software as a Service (SaaS) solution to manage their print infrastructure, this all-in-one hybrid print platform offers:

◆ **Best-in-class security**

◆ **Print jobs delivered in seconds**

◆ **A consistent user experience**

With HCP, moving your print infrastructure to the cloud **is easy, economical and employee-friendly**

Serverless printing

Reduce the cost and complexity associated with a traditional print environment. HCP lessens the burden on IT, removes reliance on print servers, enables central management, and virtually eliminates common IT helpdesk pain points.

One solution, hosted anywhere

HCP can be delivered as a hosted Software as a Service offering or installed as an on-premise private cloud.

Single print driver

HCP offers a true single print driver that includes full finishing options for all major manufacturers, making it possible for everyone to print to any device, improving employees' productivity while reducing maintenance and support.

Subscription-based solution

HCP is fully flexible; scale your consumption up and down according to business needs and simply pay for the licenses you need.

Automate administrative tasks

Enjoy hassle free printing, with immediate end-user fulfilment/device provisioning. No need to install and maintain multiple print drivers for all your different printers. HCP makes it easy to deploy and control the entire printing infrastructure from a single web-based interface.

Best in class security

HCP is designed for Zero Trust requirements. Protect your data with features including end-to-end server to hardware encryption, user authentication, auditing functionality, and integration with cloud-based authentication provider Okta.

Multi-tenant platform

Create your own print environment on the HCP multi-tenant platform, replace existing Windows and Mac-based print infrastructure in less than ten minutes.
